Career Development

The goal of **WEST Consultants, Inc.** career development program is to enhance the Company's performance by ensuring that our employees are properly motivated and their skills are maximized. Whenever possible, we look to recruit at the entry level and promote from within. Through our succession planning process and training and development programs, we are able to strengthen our employee's skill base to prepare them for their next step forward.

Our career development program is strongly supported through our training and development opportunities. In addition to our tuition assistance program, we offer an internal training program in courses ranging from time management, to project management. Professional development at our company is not just limited to the classroom. We have an active, internal research and development program through which a number of our employees have created innovative and cost-effective strategies for both internal and external clients.

WEST Consultants, Inc. is committed to a policy of equal employment opportunity for all applicants and employees.
